Dear Bill O'Connell:

I just had to let you know how pleased your Algae-x product has made me. It accomplished more than I had expected. Below is a list of the many improvements that I found after the simple installation was completed.

- (a) My stern is free of a black film due to the incomplete combustion of diesel fuel.
- (b) Fuel consumption decreased by at least 15%.
- (c) Racor "see-thru" bowl stays cleaner for a longer period of time.
- (d) It appears that the engine runs smoother.
- (e) My rpm's increased somewhat, giving increased power.

After having the above positive results, I decided not to have my fuel tank cleaned.

Again thanks for putting out a wonderful product.
