Memo To: Ed Linderman  
Sales Representative  
Florida Detroit Diesel - Allison, Inc.  
Ft. Myers Branch

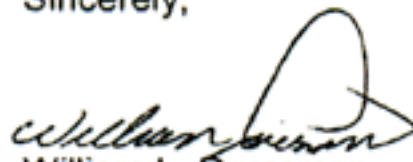

Reference: Algae-X Products and Warranty Issues

We, at all eight Florida Detroit Diesel - Allison, locations highly recommend the Algae-X Magnetic fuel devices installed in all diesel applications including trucks, RV's, marine, stationary, transit, coach, pick-up, emergency, and school bus, as well as off road equipment. Clean fuel and cleaner running engines mean less down-time, lower maintenance cost, as well as lowering the use of fuel due to the cleanliness produced, filter change will be less frequent. We have sold and installed hundreds of Algae-X magnetic fuel devices, of all sizes in all of the above diesel applications for two years.

We also use and highly recommend using the Algae-X fuel catalyst whenever needed.

Detroit Diesel Corporation will neither approve or disapprove the use of Algae-X products and the use will not affect the warranty of your engine.

Sincerely,

  
William L. Prussman  
Branch Manager
