

Alexis Desroches

Dear ALGAE-X,

The fuel we get in Haiti is not always great. I had to change the fuel filter on my Mitsubishi Montero at least every 3 months. Four years ago I installed an LG-X200 Fuel Conditioner on my Montero. I purchased the unit from Behrmann Motors who are the authorized Mitsubishi, Ford, Kia and Volkswagen Dealers for Haiti. It has proven to be the best thing I ever did for my vehicle.

Mr. Behrmann told me that the ALGAE-X would extend filter change intervals, improve engine performance and save fuel. It has done all that. After four years and 27,694 miles we were really curious and decided to change the filter, even though it was not clogged. To our amazement, the element which is made of some rolled up filter material, was still clean when we opened it up.

I thought you would like to see the attached pictures. We are not professional photographers but you can clearly see the results of your ALGAE-X and why I wrote you this letter.

This is great, thank you for making such an excellent product.

Alexis Desroches
